

# Optimizing provider staffing with smart technology

## The cutting edge of locums technology. The human side of applying it.

In today's healthcare landscape, workforce challenges and administrative inefficiencies can delay access to care and impact decision-making. Locumsmart, a best-in-class, vendor-neutral technology, optimizes staffing through data-driven forecasting, automation, and streamlined workflows. Trusted by over 800 healthcare facilities and connecting them to 100+ locums agencies and 34,000+ physician candidates, Locumsmart reduces administrative burdens, enhances efficiency, and empowers organizations with actionable insights to make informed staffing decisions and forecasting.

## A smarter, more efficient way to manage locum vendors

Traditional staffing models require excessive time and resources, forcing healthcare organizations to navigate multiple vendors, evaluate providers manually, and negotiate contracts without clear data insights.

Locumsmart automates these workflows, reducing administrative burdens and improving efficiency across locums staffing.

## The benefits of partnering with Locumsmart

### Centralized vendor management

- Access 82% of the locums market through a single, secure portal
- Set priority levels for preferred vendors when submitting provider needs

### Automated staffing and contracting

- Track assignments from submission to invoicing within a digital workflow
- Leverage data-backed procurement tools to mitigate disputes and ensure transparency

### Data-driven decision support

- Utilize analytics and reporting tools to optimize staffing strategies
- Forecast utilization and spend with predictive analytics

### Reduced costs and create ROI

- Lower administrative costs through automation and streamlined processes
- Improve contract execution speed with built-in e-signature capabilities

### Intuitive, role-based user experience

- Set default functionalities based on different roles assigned to staffing team members: credentialer, recruiter, manager, or administrator
- Customize access levels to align with your organization's structure and workflow

Let's connect to explore how  
Locumsmart can support your  
organization's workforce strategy.
