

Creating the model of efficiency — together.

We view ourselves as an extension of your organization. Our relationship-based approach results in a solution created specifically for you and allows you to focus on your long-term goals rather than staffing emergencies. Before we even open a job, we want to understand you, your needs, and how we can help. And if we can't, we'll be honest in telling you that, too.

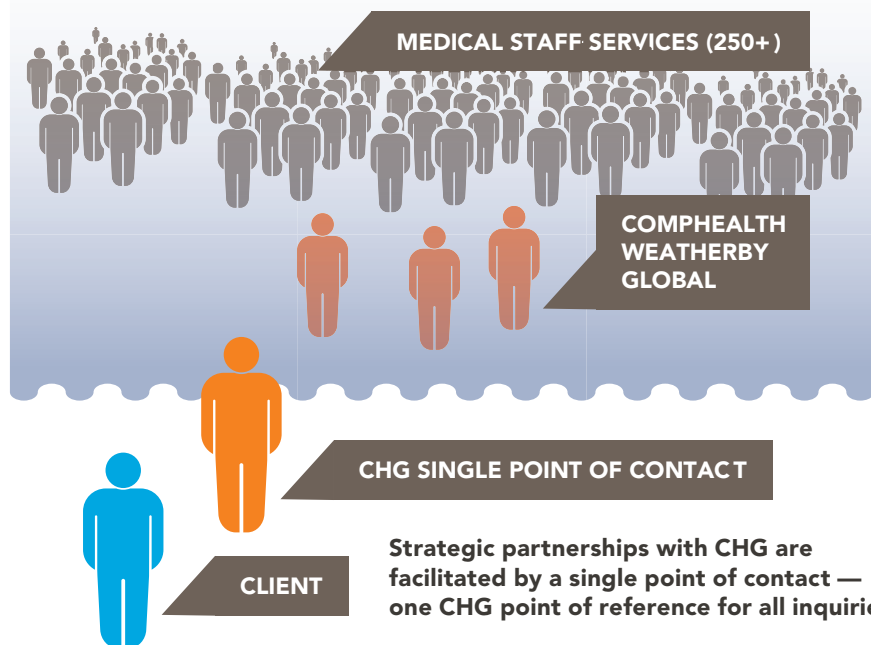

FOR US, WIN-WIN ONLY GOES HALFWAY

Our core values and company purpose compel us to enter only into partnerships that improve the lives of our people, our providers, our clients, and the communities we serve. If a solution doesn't benefit each of those parties, it's not for us.

CUSTOMIZED REPORTING

We provide reporting that contains valuable data: year-over-year spend, coverage, specialties and work sites, and more. These are all critical components of visibility and

cost containment, but without a consultant, without a partner to help you interpret and make decisions based on this information — it's just data.

Our five brands provide trusted, comprehensive staffing in hundreds of medical specialties.
